What is BRAC?

The Base Realignment and Closure (BRAC) is a process implemented by DoD to reorganize its base structures to improve efficiency and effectiveness in supporting its forces, to increase operational readiness, and to facilitate new ways of doing business. As a result, many workers impacted by BRAC face jobs shifts, career changes, layoffs and relocations.

The Enhanced Regional Workforce Collaboration with BRAC

SkillSource is collaborating with the Commonwealth of Virginia, the Arlington/Alexandria Workforce Investment Board, the State of Maryland and the District of Columbia to jointly support workers and employers in Northern Virginia responding to the DoD Base Realignment and Closure (BRAC) initiative.
